FREQUENTLY ASKED QUESTIONS

Q. How can I access my Wealth Builder Life Insurance cash value?

- A.** You may access your Wealth Builder Life Insurance cash value any time by taking a policy loan or surrendering your policy. You will receive all of your money back — both premium paid and interest earned. If you receive the funds before you are age 59½, you may have to pay a 10% penalty on the interest earned. Alternatively, you may convert your Wealth Builder Life Insurance policy into a lifetime annuity payment after holding the policy for 10 years.

Q. What are my Wealth Builder Life Insurance guarantees?

- A.** Your Wealth Builder Life Insurance policy is guaranteed to earn a minimum crediting rate (specified in your policy) less administrative charges for mortality and expenses. As a life insurance policy it has a graded death benefit. It will pay a minimum of 85% of the initial death benefit in year one, 90% in year two, and 100% in year three, and thereafter.

Q. What are the potential tax implications of accessing my Wealth Builder Life Insurance cash value?

- A.** First, you should always consult a qualified tax professional regarding your taxes. In general, if you decide to cash surrender one or several Wealth Builder Life Insurance policies purchased during the same calendar year, you will have to pay taxes on the interest earned for all of the policies with the first policy. When you cash surrender subsequent policies, since you have already paid some or all of the taxes, you will pay tax only on the subsequent gain for those policies.

Ultimately the amount of total taxes on the policies surrendered will be roughly the same, because the tax basis of the subsequent policies will be increased to reflect the taxes already paid. This will not have an impact on policies that are annuitized, if all policies surrendered simultaneously, or in the event of the policy owner's death.
